Ryan Robinson teaches the discipline of high-stakes focus — *and proves it a thousand feet in the air.*

Your team is sharp in rehearsal. Then the stakes arrive.

Ryan has walked one-inch webbing over canyons and between skyscrapers, with a crew who hold his life in their work. He shows your people what holds when a mistake can't be absorbed.

THE KEYNOTE

WALKING THE LINE • 30 TO 60 MINUTES

The line on the ground never changes. Raise it sixty feet and the only thing that changes is the consequence. Ryan takes the room from his first fall in 2011 to a record walk in front of 10,000 people, and gives them the tools that carried him across.

- Rehearse the moment before it arrives
- Narrow your focus to the one thing that matters
- Build systems and a crew you can trust

WAYS TO BRING HIM IN

- Keynote
- Keynote + indoor low-line demonstration
- Keynote + live outdoor highline performance
- Virtual keynote
